

VARIOUS BSA® APPLICATIONS HIGH PERFORMANCE PUSHRODS

BSA® A50 1966-1970
BSA® A65 1971-1972

BSA® B25 1968-1971
BSA® B44 RB 1967-Earlier

BSA® B44 SqB 1968-1970
BSA® B50 1971-1973

- KPMI® Pushrods are designed with thin-wall Chrome Moly tube for increased stiffness over O.E.M
- Male and female endpieces are made from hardened steel and offer increased wear resistance
- Blank Pushrod Kits come with one female endpiece pressed into the body and loose endpieces specified in the kit
- Custom length pushrods up to 9" in "B" dimension available upon request
